

Caldwell Community Center Task Force  
June 25, 2020 Agenda  
“Aquatics”

I. Greetings from Mayor Kelley

II. Task Force Meeting Explanation

The Caldwell Community Center Task Force has scheduled five public meetings with topical themes for each meeting. These meetings are not intended to be the forums in which final determinations will be made regarding the future disposition of the topic under consideration. Rather, these meetings are intended as forums devoted to fact-finding about the topic, so that the Task Force can be better informed when it is asked to deliberate regarding its recommendations regarding decisions that will need to be made by the Mayor and Council. As announced at the first meeting, the goal is for the recommendations to be made to the governing body by early fall, so that they may have the opportunity to consider the issues in detail and make decisions so that those decisions may be implemented as part of the Borough's plans for the year 2021.

III. Sub-Committee Assignments: Henderson Cole

IV. Advisory Board Participants: Christine Schmidt
